Source: CMS 2082 report series prior to FY 2004, SAS Eligibility and Claims Invoice files thereafter. (6)

Notes:

- (1) This category of service was redefined by CMS in FY 1999
- (2) Prescription counts include refills.
- (3) Data does not include service units delivered in HMO programs
- (4) This report is updated annually in August/September
- (5) VaMMIS system modifications and CMS reporting requirements have forced substantial counting method changes for FY 2004 based on MSIS definitions. The apparent increase in data variability is not thought to be significant¹ correlated to any actual shifts in expenditure, utilization, or enrollment levels that may have occurred since FY 2001.
- (6) CMS 2082 reports series inaccurate at time of publication. FY 2004 has been restated to reflect change in data source
